PROFILE

Flutter Developer with 1+ years of experience building and maintaining cross-platform mobile applications using Flutter and Dart. Experienced in feature development, REST API integration, Clean Architecture, and Cubit state management. Skilled in debugging, performance optimization, app deployment, and collaborating within Agile teams using Git-based workflows and CI/CD practices.

WORK EXPERIENCE

Almasader Alraqmia

Mansoura, Egypt

Flutter developer – full time – on site

Feb 2026 - Present

- Implemented **CI/CD pipelines** to automate build and deployment processes
- Collaborated with team members** to develop features in parallel and maintain version control consistency
- Leveraged **AI tools** to accelerate development, debugging, and problem-solving
- Tracked development progress using **ClickUp**, including task updates, bug tracking, and status reporting
- Implemented **multi-environment configurations (flavors)** for better build and release management
- Contributed to **modular app architecture using Clean Architecture + Cubit**, improving code maintainability
- Published, maintained, and managed app releases on **Google Play Store**

Growfet

Mansoura, Egypt

Flutter developer – full time – on site

Apr 2025 - Feb 2026

- Built reusable UI components to improve **development speed and consistency**
- Selected appropriate architecture based on project size (**avoiding over-engineering for small apps**)
- Conducted **code reviews for teammates**, ensuring UI consistency and correct app behavior
- Collaborated with QA testers** by analyzing bug reports and tracking task/bug status to ensure timely fixes

PROJECT EXPERIENCE

Almasader Alraqmia

Abher | Flutter ([Google Play](#) & [App Store](#))

- A platform for **booking** sea trips and events, enabling users to explore and reserve boats, yachts, and marine activities.
- Connects clients with service providers** who offer experiences such as fishing trips, private events, and sea adventures
- Developed a **dual-platform application serving** both clients and service providers

Jadeel Coffee | Flutter ([Google Play](#))

- A food and beverage **ordering app** that allows users to **browse and order** coffee, breakfast, and drinks
- Supports **multiple order options** including delivery, car pickup, and branch pickup
- Provides a complete ordering experience from **browsing products** to **placing orders** and **tracking their status**.

EDUCATION

Mansoura University

Mansoura, Egypt

Bachelor's degree in computer and information science (Major: Software Engineering)

2022 - 2026

SKILLS

Programming Languages: Kotlin, Java, Dart.

Architecture: Clean Architecture, MVC

Concepts: SOLID Principles, OOP, Design Patterns.

State Management: Bloc (Cubit), Familiar with Riverpod.

Firebase: firebase Authentication, FCM, App tester, Remote config.

Tools: Git, GitHub, GitLab, Postman, Hoppscotch.

Testing: Basic knowledge of Unit Testing and Integration Testing.

Packages: Dio, http, shared_preferences, google_maps_flutter, permission_handler, go_router, easy_localization, pusher.

Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management, Attention to Detail, Continuous Learning.

LANGUAGES

Arabic (Native), English
